Accessibility Statement

IEEE strives to provide an accessible web presence to all people, regardless of disabilities. To support this commitment, IEEE has adopted the W3C's Web Content Accessibility Guidelines (WCAG) 2.0 Level A as the enterprise Web Accessibility objective. However, IEEE Web

Axe that idea!

The image shows a screenshot of the IEEE website's 'Accessibility Statement' page. The page content includes a statement of commitment to accessibility, contact information for accessibility issues, and navigation links for 'About IEEE' and 'Membership'. Overlaid on the right side of the page is the Axe accessibility tool interface. The tool shows 29 violations found, with a red circle highlighting the 'Violations found 29' text. Below this, a list of violations is displayed, including 'Elements must have sufficient color contrast' (2), 'id attribute value must be unique' (4), '<html> element must have a lang attribute' (1), 'Form elements must have labels' (1), 'Page must contain one main landmark' (1), 'Links must have discernible text' (16), 'Zooming and scaling must not be disabled' (1), 'Page must contain a level-one heading' (1), 'Content should be contained in a landmark region' (1), and 'The skip-link target should exist and be focusable' (1).

Accessibility Statement

IEEE strives to provide an accessible web presence to all people, regardless of disabilities. To support this commitment, IEEE has adopted the W3C's Web Content Accessibility Guidelines (WCAG) 2.0 Level A as the enterprise Web Accessibility objective. However, IEEE Web publishers are encouraged to deliver content at higher accessibility levels (Level AA or Level AAA) whenever possible.

If you have any trouble accessing information or services on IEEE's site, please contact accessibility@ieee.org. Please specify the nature of the accessibility issue and the assistive technology you use.
